Displaced Persons: No

CURRENT SITUATION

(Recent updates are posted at the top of Current Situation)

The City of Riverside Fire Department responded to a traffic collision with injuries. Upon arrival of the first due engine company the found several vehicles involved and one vehicle came to rest on top of a pick-up truck. The driver of this vehicle needed to be extricated from their car. The closest truck company was requested to assist with the extrication. Further investigation revealed the vehicle was possibly traveling at high speeds and neglected to navigate the turn at Comer St and Mission Inn. The vehicle traveled through a front yard hitting wrought iron, trees and the apartment at 2418 Mission Inn. The vehicle continued to hit two parked cars on the street and ultimately landed on the roof of a pick-up truck parked in the driveway of 2374 Mission Inn. No one was injured in either home nor was any occupying the parked vehicles. The Technical Rescue was requested to evaluate the damage structure and assist with the technical rescue as the vehicle was above grade for extrication. The patient was extricated from the vehicle with the "Jaws of Life" and transported with Fire Department paramedics to the local trauma emergency room. Utilities was requested to evaluate possible lines down from a power pole. Building and Safety and Code Enforcement was requested to respond out in the morning due to the damaged structure. The structure did not appear to have structural instability. The scene was left to RPD and no safety personnel were injured during this incident.
